

UMR Engines provides a limited 2 year limited warranty on our fully reconditioned cylinder heads for "private use" or 12 months or 20,000km limited warranty which ever occurs first for "commercial use". Warranty periods are effective from date of purchase. UMR Engines reconditioned cylinder heads are built to "*Australian standards AURTTM3011 release 2*" and our workmanship has proudly been approved by RACQ for over 25 years. This alone gives you confidence that our finished product is of the highest quality, as we are bound by the RACQ's code of conduct and practice.

**It is the installer and buyers responsibility** to ensure that all components purchased are of the correct fitment for the item it is replacing. No warranty applies if the component or parts have been incorrectly fitted or has been mistreated, poorly maintained or damaged due to associated component failure. It is the owners responsibility to document and ensure that the component or part has the expected maintenance and service. Warranty does not apply to performance or non standard applications. Parts sold that have been modified to suit any other applications other than originally intended carry no warranty. All parts and components have to be fitted by a qualified tradesperson for the limited 2 year warranty to apply.

UMR Engines will repair or replace the component at their discretion. **The warranty is limited to the component purchased only and no other associated costs are covered under this warranty.** The Australian competition and consumer act of 2010 table certain conditions, legal rights, fitness for use and quality relating to UMR Engines products and services sold in Australia.
